

ARZAAN MOGAL

Predictive Analytics | Data Science | Business Intelligence | Machine Learning

Perth, Western Australia | arzaan.am31@gmail.com | +61 0431 786 090 LinkedIn:
<https://www.linkedin.com/in/arzaan-mogal31031999/>

PROFESSIONAL SUMMARY

Master's candidate in Predictive Analytics with a strong foundation in machine learning, business intelligence, data visualization, and statistical analysis. Demonstrated ability to transform complex datasets into actionable business insights through end-to-end analytics projects spanning ESG finance, renewable energy forecasting, classification modelling, and database engineering. Combines technical analytics capability with professional experience in business development, stakeholder management, and client-facing roles across Australia and India. National winner of the Smart India Hackathon. Actively contributing to the student community as a Postgraduate Counselor at Curtin Student Guild.

CORE COMPETENCIES

Analytics & Data Science	Business Intelligence	Technical Skills
Machine Learning	Tableau	Python
Predictive Analytics	Power BI	R
Statistical Analysis	Dashboard Design	SQL / SQLite
Classification Modelling	Storytelling with Data	Scikit-Learn
Forecasting & Trend Analysis	Data Visualization	HTML / CSS / JS
Feature Engineering	ESG & Financial Analytics	Database Design
Data Mining & Cleaning	Business Reporting	ER Modelling

Professional Skills: Communication | Leadership | Mentoring | Stakeholder Engagement | Problem Solving | Business Development | Team Collaboration

EDUCATION

Master of Predictive Analytics Curtin University — Perth, Western Australia *July 2024 – August 2026 (Expected)*

Relevant Areas: Machine Learning · Predictive Analytics · Business Intelligence · Data Mining · Data Visualization · Statistical Analysis · Data Engineering

Bachelor of Engineering — Information Technology Marwadi Education Foundation Group of Institutions — India *2016 – 2020 | CGPA: 7.77*

FEATURED ANALYTICS PROJECTS

ESG & Sustainable Finance Analytics Dashboard | *Tableau, Financial Analytics, Data Visualization*

- Analyzed ESG performance trends across ASX and NZX listed companies spanning 2009–2024
- Developed a multi-chapter Tableau Story covering market landscape, governance drivers, ESG correlations, and financial performance forecasting
- Delivered actionable insights into relationships between sustainability practices, governance quality, and financial outcomes
- Demonstrated proficiency in dashboard design, data storytelling, and business-oriented visual communication

Australia Renewable Energy Analysis & Forecasting | *Python, Pandas, Forecasting, Data Visualization*

- Analyzed renewable energy generation trends across Australian states from 2005–2025
- Built forecasting models to project future energy growth trajectories
- Applied predictive analytics techniques including trend decomposition and time series analysis

Data Mining Classification System | *Python, SQL, SQLite, Scikit-Learn, SMOTE*

- Designed and implemented an end-to-end machine learning pipeline for classification
- Applied algorithms including KNN, Naive Bayes, Decision Tree, Random Forest, and Gradient Boosting
- Handled data cleaning, missing value treatment, feature engineering, and class imbalance using SMOTE
- Evaluated model performance using appropriate classification metrics

Data Management & Database Systems | *SQL, Database Design*

- Designed relational database schema using ER modelling and normalization principles
- Developed SQL queries for data extraction, transformation, and integrity management
- Applied industry-standard practices for database architecture and documentation

Delivery Route Optimization System | *Python, Graph Algorithms*

- Implemented graph-based logistics optimization using BFS, DFS, and shortest path algorithms
- Designed a route optimization solution applicable to real-world delivery scenarios

Cybersecurity Risk Assessment | *NIST SP 800-30 Framework*

- Conducted structured threat identification, vulnerability analysis, and risk modelling
- Produced security recommendations aligned with NIST cybersecurity standards

Funding Analysis for Education Startup | *Business Analytics, Strategic Research*

- Completed through the **Study Australia Industry Experience Program** (delivered by Practera, Study Australia, and the Australian Trade and Investment Commission)
- Conducted grant and funding opportunity research for an Australian education startup
- Delivered comparative analysis and strategic recommendations in a professional business report

Petrol Price Analytics | *Microsoft Excel, Data Visualization*

- Performed historical pricing analysis, trend identification, and pattern discovery
- Built an interactive Excel dashboard for business-ready visual presentation

Smart India Hackathon — National Winner 🏆

- Delivered a nationally recognized winning solution for the Ministry of Statistics and Programme Implementation
- Led large-scale data analysis, insight generation, and solution development within a competitive team environment

PROFESSIONAL EXPERIENCE

Code Camp Tutor *September 2024 – Present | Perth, Australia*

- Deliver engaging coding and technology education to young learners across structured camp programs
- Mentor students through hands-on problem-solving exercises and programming fundamentals
- Adapt technical explanations to diverse learning styles and age groups

Mathematics Tutor — Ezy Math Tutoring *August 2024 – Present | Perth, Australia*

- Provide one-on-one mathematics tutoring with personalized learning plans for individual students
- Coach quantitative reasoning skills and build student confidence in analytical thinking
- Track progress and adjust instruction to meet academic goals

Team Member — Woolworths *December 2024 – Present | Perth, Australia*

- Deliver consistent customer service, inventory management, and operational support
- Collaborate effectively within a fast-paced team environment

Sales & Business Development — Red and White Multimedia Education *August 2023 – June 2024 | Rajkot, India*

- Counselling prospective students and developed educational pathways to increase institutional enrolments
- Facilitated workshops and information sessions for prospective learners and families
- Contributed to sales strategy development and lead conversion activities

Business Development Associate — BYJU'S *December 2021 – February 2023 | India*

- Managed client relationships and drove revenue growth through consultative sales and market analysis
- Developed and executed sales strategies contributing to regional business targets
- Collaborated across teams to support client acquisition and retention

Computer Operator — Regail Computers *August 2020 – October 2021 | India*

- Managed day-to-day operations including technical troubleshooting, process improvements, and inventory management

IT Intern — Soft Wisdom Technologies *India*

- Supported website development, IT operations, data management, and software project delivery

LEADERSHIP & COMMUNITY IMPACT

Postgraduate Student Committee Councillor — Curtin Student Guild *September 2025 – September 2026*

- Elected representative for postgraduate students, providing advocacy and leadership at institutional level
- Engage with university stakeholders on student welfare, policy, and community development

International Student Committee Member — Curtin Student Guild *July 2024 – Present*

- Support international student engagement, community programs, and campus events

Student Volunteer — TEDx Marwadi University 2019

Member — National Service Scheme 2016 – 2019

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Deloitte Australia Data Analytics Job Simulation — *Forage*
- Study Australia Industry Experience Program — *Completer Badge*
- CCNA Cybersecurity Operations — *Cisco*
- Cisco Cybersecurity Essentials
- Cybersecurity Essentials Learn-A-Thon Badge
- Data Science Foundations
- Google Ads Search Certification — *Google*
- Microsoft Virtual Academy C# Fundamentals — *Microsoft*
- Advanced Android Development Certification

INDUSTRY EXPOSURE

Study Australia Industry Experience Program Delivered by Practera, Study Australia & Australian Trade and Investment Commission

- Completed a real-world industry consulting engagement with an Australian education startup
- Produced professional-grade business analysis and strategic funding recommendations
